### 2. Summary of Significant Accounting Policies

#### Basis of Preparation

The interim condensed consolidated financial statements as at June 30, 2020 and for the six-month periods ended June 30, 2020 and 2019 have been prepared on a historical cost basis, except for investments at fair value through other comprehensive income which have been measured at fair value.

The interim condensed consolidated financial statements are presented in Philippine Peso (₱) which is the functional and presentation currency of the Parent Company, and all amounts are rounded to the nearest Philippine Peso, unless otherwise indicated.

#### Statement of Compliance

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*.

#### New Standards, Interpretations and Amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended December 31, 2019, except for the adoption of new standards effective as at January 1, 2020. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective except for the amendment to PFRS 16, *Leases*.

Several amendments and interpretations apply for the first time in 2020, but do not have an impact on the interim condensed consolidated financial statements of the Group.

- Amendments to PFRS 3, *Business Combinations, Definition of a Business*  
The amendments to PFRS 3 clarifies that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. Furthermore, it clarified that a business can exist without including all of the inputs and processes needed to create outputs. These amendments had no

impact on the consolidated financial statements of the Group, but may impact future periods should the Group enter into any business combinations.

- Amendments to PFRS 7, *Financial Instruments: Disclosures* and PFRS 9, *Financial Instruments, Interest Rate Benchmark Reform*

The amendments to PFRS 9 provide a number of reliefs, which apply to all hedging relationships that are directly affected by interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainties about the timing and or amount of benchmark-based cash flows of the hedged item or the hedging instrument. These amendments had no significant impact on the consolidated financial statements of the Group.

- Amendments to PAS 1, *Presentation of Financial Statements*, and PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Material*

The amendments provide a new definition of material that states “information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.”

The amendments clarify that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, in the content of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. These amendments had no impact on the consolidated financial statements of, nor is there expected to be any future impact to the Group.

- Conceptual Framework for Financial Reporting issued on March 29, 2018

The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The purpose of the Conceptual Framework is to assist the International Accounting Standards Board in developing standards, to help preparers develop consistent accounting policies where there is no applicable standard in place and to assist all parties to understand and interpret the standards.

The revised Conceptual Framework includes new concepts, provides updated definitions and recognition criteria for assets and liabilities and clarifies some important concepts.

These amendments had no impact on the unaudited interim condensed consolidated financial statements of the Group.

- Amendments to PFRS 16, *COVID-19-related Rent Concessions*

The amendments provides relief to lessees from applying the PFRS 16 requirement on lease modifications to rent concessions arising as a direct consequence of the COVID-19 pandemic. A lessee may elect not to assess whether a rent concession from a lessor is a lease modification if it meets all of the following criteria:

- The rent concession is a direct consequence of COVID-19;
- The change in lease payments results in a revised lease consideration that is substantially the same as, or less than, the lease consideration immediately preceding the change;
- Any reduction in lease payments affects only payments originally due on or before June 30, 2021; and
- There is no substantive change to other terms and conditions of the lease.

A lessee that applies this practical expedient will account for any change in lease payments resulting from the COVID-19 related rent concession in the same way it would account for a change that is not a lease modification, i.e., as a variable lease payment.

The amendments are effective for annual reporting periods beginning on or after June 1, 2020. Early adoption is permitted. The amendments were early adopted by the Group beginning January

1, 2020 but has no impact to the interim condensed consolidated financial statements as of June 30, 2020.

#### Basis of Consolidation

The interim condensed consolidated financial statements comprise the financial statements of the Group. For the six-month period ended June 30, 2020, there was no change in the Parent Company's ownership interest in its subsidiaries.

---

### 3. Significant Judgements Estimates and Assumptions

The preparation of the interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts in the consolidated financial statements and related notes at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the affected asset or liability in the future.

There were no significant changes in the significant accounting judgments, estimates, and assumptions used by the Company for the six-month period ended June 30, 2020 except, as a consequence of COVID-19 pandemic, for the impairment testing of goodwill and expected credit losses determination for installment contracts receivable and accounts receivable from tenants.

### 4. Segment Information

For management purposes, the Group's operating segments are organized and managed separately according to the nature of the products provided, with each segment representing a strategic business unit that offers different products and serves different markets. The Group has three reportable operating segments as follows:

#### *Horizontal Projects*

This segment pertains to the development and sale of residential house and lot across the Philippines.

#### *Vertical Projects*

This segment caters on the development and sale of residential condominium projects across the Philippines.

#### *Commercial and others*

This segment pertains to rental of malls and office spaces, hotel operations, and activities of holding companies.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on segment operating income or loss before income tax and earnings before income tax, depreciation and amortization (EBITDA). Segment operating income or loss before income tax is based on the same accounting policies as consolidated operating income or loss. No operating segments have been aggregated to form the above reportable operating business segments. The chief operating decision-maker (CODM) has been identified as the chief executive officer. The CODM reviews the Group's internal reports in order to assess performance of the Group.

The amount of segment assets and liabilities are based on the measurement principles that are similar with those used in measuring the assets and liabilities in the consolidated statements of financial position which is in accordance with PFRS. The segment assets are presented separately from the receivables

from related parties, investments at FVOCI, investments at amortized cost and deferred taxes. Segment liability are presented separately from the deferred tax liabilities.

The financial information about the operations of these business segments for the six months ended June 30, 2020 is summarized below (in Php Millions):

<b>Depreciation and amortization</b>	173	17	1,001	-	1,186

No operating segments have been aggregated to form the above reportable segments.

Capital expenditure consists of construction costs, land acquisition and land development costs.

The Group has no revenue from transactions with a single external customer amounting 10% or more of the Group's revenue. There is no cyclical of operations in interim operations.

## 5. Revenue from Contracts with Customers

### a. Disaggregated Revenue Information

The Group derives revenue from the transfer of services and goods over time and at a point in time, respectively, in different product types and other geographical location within the Philippines

The Group's disaggregation of each sources of revenue from contracts with customers are presented below:

	<b>June 30, 2020</b>
Type of Product	
Real estate sales	
Horizontal	<b>₱10,811</b>
Vertical	<b>1,962</b>
	<b>₱12,773</b>
Hotel Operations	<b>271</b>
	<b>₱13,044</b>

All of the Group's real estate sales are revenue from contracts with customers that are recognized over time except for hotel operation's sale of food and beverages which is at point in time. There are no inter-segment eliminations among revenue from contracts with customers, as there are all sold to external customers as disclosed in the segment information.

Due to the impact of COVID 19 pandemic, buyer's appetite has softened and initially preferred to stay liquid amid the current recession, with layoffs, travel restrictions, repatriations, nationwide lockdowns beginning on the third week of March 2020, and uncertainty surrounding future recovery. The latter, coupled with the imposed quarantine which temporarily suspended construction activities and delivery of materials to sites, resulted to lower progress of work which impacted the real estate sales recognized for the second quarter of 2020.

#### *Contract Balances*

	<b>June 30, 2020</b>
Installment contracts receivable	<b>43,651</b>
Cost to obtain contract	<b>1,567</b>
Contract liabilities	<b>2,767</b>

Installment contracts receivable from real estate sales which are collectible in equal monthly principal installments with various terms up to a maximum of 15 years. These are recognized at amortized cost using the effective interest method. Interest ranges from 4.63% to 19.00% per annum in 2020. The corresponding titles to the residential units sold under this arrangement are transferred to the customers only upon full payment of the contract price.

Contract liabilities consist of collections from real estate customers which have not reached the equity threshold to qualify for revenue recognition and excess of collections over the good and services transferred by Group based on percentage of completion. The movement in contract liability is mainly due to reservation sales and advance payment of buyers less real estate sales recognized upon reaching the equity threshold and from increase in percentage of completion.

#### b. Performance obligations

Information about the Group's performance obligations are summarized below:

##### *Real estate sales*

The Group entered into reservation agreements with one identified performance obligation which is the sale of the real estate unit together with the services to transfer the title to the buyer upon full payment of contract price. The amount of consideration indicated in the contract to sell is fixed and has no variable consideration.

The sale of real estate unit covers subdivision land, condominium units and residential house units and the Group concluded that there is one performance obligation in each of these contracts. The

Group recognizes revenue from the sale of these real estate projects under pre-completed contract over time during the course of the construction.

Payment commences upon signing of the reservation agreement and the consideration is payable in cash or under various financing schemes entered with the customer. The financing scheme would include payment of 10% - 20% of the contract price to be paid over a maximum of 24 months at a fixed payment for horizontal developments and 20% - 60% of the contract price to be paid over a maximum of 60 months at a fixed payment for vertical developments with remaining balance payable (a) in full at the end of the period either through cash or external financing; or (b) through in-house financing which ranges from 2 to 15 years with fixed monthly payment. The amount due for collection under the amortization schedule for each of the customer does not necessarily coincide with the progress of construction, which results to either an installment contracts receivable or contract liability.

After the delivery of the completed real estate unit, the Group provides one-year warranty to repair minor defects on the delivered serviced lot and house and condominium unit. This is assessed by the Group as a quality assurance warranty and not treated as a separate performance obligation.

The remaining performance obligations expected to be recognized within one year and in more than one year relate to the continuous development of the Group's real estate projects. The Group's condominium units are completed within three to five years from start of construction while serviced lots and serviced lots and house are expected to be completed within two to three years from start of development.

#### *Rental agreements*

The Group entered into lease agreements for its mall retail spaces and office spaces with the following identified performance obligations: (a) lease of space, (b) provisioning of water and electricity, and (c) connection to air conditioning system, (d) CUSA services, and (e) administration fee. Revenue from lease of space is recognized on a straight-line basis over the lease term while revenue for the remaining performance obligations are recognized when services are rendered. The tenant is required to settle within 30 days upon receipt of the bill. In case of delay in payments, a penalty of 5% is charged for the amount due and shall be charged another 5% the following month of delay and every month thereafter inclusive of penalties previously charged. The lease arrangement would typically require a tenant to pay advance rental equivalent to three months and a security deposit equivalent to three months rental to cover any breakages after the rental period, with the excess returned to the tenant.

### Installment contracts receivable

Installment contracts receivable consist of accounts collectible in equal monthly installments with various terms up to a maximum of fifteen (15) years. These are carried at amortized cost. The corresponding titles to the subdivision or condominium units sold under this arrangement are transferred to the buyers only upon full payment of the contract price. The installment contracts receivable are interest-bearing

except for those with installment terms within two years. Annual interest rates on installment contracts receivables range from 12.00% to 19.00%.

#### Accounts Receivable

The accounts receivables are noninterest-bearing and collectible within one year.

This consists of the following:

##### *Receivable from tenants*

Receivables from tenants represent the outstanding receivables arising from the lease of commercial centers relating to the Group's mall and offices and are collectible within 30 days from billing date. These are covered by security deposit of tenants' equivalent to three-month rental and three-month advance rental paid by the lessees. This includes both the fixed and contingent portion of lease.

##### *Receivable from buyers*

Receivables from buyers mainly consist of receivables from buyers of real estate arising from penalties for late payments. These are non-interest bearing and are due and demandable.

##### *Receivable from contractors*

Receivable from contractors are advance payments in relation to the Group's construction activities and are recouped through reduction against progress billings as the construction progresses. Recoupment occur within one to five years from the date the advances were made.

##### *Receivable from brokers*

Receivable from brokers are cash advances for operating use. These are applied to subsequent commission payout to brokers.

##### *Receivable from suppliers*

Receivable from suppliers are advance payments for the purchase of construction materials. These will be applied to billings for deliveries made within one year from financial reporting date.

##### *Others*

Other receivables consist mainly of receivables from various individuals and private entities and other nontrade receivables. These are non-interest bearing and are due and demandable.

#### *Expected Credit Loss Estimation*

The Group assesses at each financial reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. The fact that title of the real estate properties are transferred only to the buyer upon full payment of the contract price is considered in the evaluation of impairment. Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, and where observable data indicate that there is measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults. The latest key assumptions used to determine the recoverable amount were disclosed in the annual consolidated financial statements for the year ended December 31, 2019.

The Group has determined that the COVID-19 pandemic have adversely impacted the current operations of the Group and is expected to impact its future business activities. The collectability of the significant portion of its receivables from real estate sales is impacted by the continuing employment of its customers, both the overseas contract workers and locally employed customers, particularly working within the industry adversely affected by COVID-19.

Tenants which belong to small and medium enterprise and those operating under entertainment, non-essentials and food industries are adversely affected due to temporary closure of mall operations. This increase the risk of non-collection of the remaining receivables.

As the above are indicators of increase in credit risk, the Group revisited the expected credit loss exercise as at June 30, 2020 for its receivables and incorporated quantitative changes in probability of default, recoveries and qualitative factors.

For the installment contracts receivables and receivable from tenants, the Group put more weight on the pessimistic outcome in its calculation of probability of default. In addition, for the installment contracts receivable, the Group considered a 15% and 5% decline in the resale value of inventory recoveries including the longer period of resale in the determination of the loss given default.

As a result of the loss estimation, management did not identify an impairment for installment contracts receivable but recognized an additional impairment loss for receivable from tenants of ₱39 million for the six months period June 30, 2020.

## 10. Real Estate Inventories

This account consists of:

Subdivision land for sale and development	₱ 35,959
Condominium units for sale and development	5,457
Residential house units for sale and development	745
	<b>₱ 42,161</b>

The real estate inventories are carried at cost. There is no allowance to recognize amounts of inventories that are lower than cost.

Subdivision land for sale and development represents real estate subdivision projects in which the Group has been granted license to sell by the Housing and Land Use Regulatory Board of the Philippines. It also includes raw land inventories that are under development and those that are about to undergo development.

Real estate inventories recognized as cost of sales are included as cost of real estate sales in the consolidated statements of comprehensive income. Cost of real estate sales includes acquisition cost of subdivision land, amount paid to contractors, development costs, capitalized borrowing costs and other costs attributable to bringing the real estate inventories to its intended condition.

Except as stated, there are no other real estate inventories used as collateral or pledged as security to secure the borrowings of the Group.

## 13. Project Development Costs

Project development costs mainly pertain to advances to a related party, covered by memorandum of agreement for the purchase of socialized housing units. The requirement for socialized housing units is required by the Housing and Land Use Regulatory Board (HLURB). These advances are recouped upon receipt of the socialized housing units from the related party.

The accounts also includes deposits, cash advances and other charges in connection with joint venture agreements and memorandum of agreements entered into by the Group with individuals, corporate entities and related parties for the development of real estate projects. These agreements provide, among others, the following: a) the Group will undertake the improvement and development of the real estate project within a certain period, subject to certain conditions to be fulfilled by the real estate property owner; and b) the parties shall divide among themselves all saleable inventory and commercial development of the real estate project in accordance with the ratio mutually agreed. The real estate projects are in various stages of development from planning to ongoing construction.

On December 23, 2019, the Group entered into a Memorandum of Agreement with Bria Homes, Inc. that stipulated the allocated socialized housing units to the Group from the latter's ongoing and new projects.

On September 28, 2018, the BOD of the Parent Company approved the declaration of a regular cash dividend amounting to ₱2,719.23 million or ₱0.2252 per share, in favor of all stockholders of record as of October 15, 2018, with payment date on October 29, 2018.

On September 30, 2019, the BOD of the Parent Company approved the declaration of a regular cash dividend amounting ₱3,160.86 million or ₱0.2646 per share, in favor of all stockholders of record as at October 16, 2019, which was paid on October 31, 2019.

### Non-controlling interest

In 2016, the Vista Group acquired additional 750,265,955 shares of Vistamalls (formerly Starmalls, Inc.) for a total consideration of ₱3,383.70 million. The transaction was accounted for as an equity transaction since there was no change in control. The movements within equity are accounted as follows:

FV of consideration paid	₱3,383,699,457
BV of shares	1,500,705,403
Difference charged to equity	1,882,994,054
Attributable to OCI	119,711,596
Equity reserves recognized in additional paid in capital	₱1,763,282,458

### Capital Management

The primary objective of the Group's capital management policy is to ensure that debt and equity capital are mobilized efficiently to support business objectives and maximize shareholder value. The Group establishes the appropriate capital structure for each business line that properly reflects its premier credit rating and allows it the financial flexibility, while providing it sufficient cushion to absorb cyclical industry risks.

The Group considers debt as a stable source of funding. The Group lengthened the maturity profile of its debt portfolio and makes it a point to spread out its debt maturities by not having a significant percentage of its total debt maturing in a single year.

The Group manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. It monitors capital using leverage ratios on both a gross debt and net debt basis. As of June 30, 2020 and December 31, 2019, the Group had the following ratios:

	<b>Jun 30, 2020</b>	<b>Dec 31, 2019</b>
Current ratio	387%	396%
Debt-to-equity ratio	133%	140%
Net debt-to-equity ratio	94%	92%
Asset-to-equity ratio	265%	273%

As of June 30, 2020 and December 31, 2019, the Group had complied with all externally imposed capital requirements (Notes 18 and 19). No changes were made in the objectives, policies or processes for managing capital during the period ended June 30, 2020 and December 31, 2019.

The Group considers as capital the equity attributable to equity holders of the Group.

### Financial Risk Assessment

The Group's financial condition and operating results would not be materially affected by the current changes in liquidity, credit, interest, currency and market conditions.

Credit risks continue to be managed through defined credit policies and continuing monitoring of exposure to credit risks. The Group's base of counterparties remains diverse. As such, it is not exposed to large concentration of credit risk.

Exposure to changes in interest rates is reduced by regularly availing of short-term loans as it relates to its sold installment contracts receivables in order to cushion the impact of potential increase in loan interest rates.

Exposure to foreign currency holdings are as follows:

	<b>Jun 30, 2020</b>	<b>Dec 31, 2019</b>
Cash and cash equivalents	US\$37	US\$11
Investments at amortized cost	652	667
Notes payable-net	(707)	(705)

Liquidity risk is addressed with long-term funding already locked in, while funds are placed on a short-term placement.

## 22. Cost and Expenses

### *Cost of real estate sales*

Cost includes acquisition cost of subdivision land, construction and development cost and capitalized borrowing costs. Cost of real estate sales recognized for the period ended June 30, 2020 and 2019 amounted to ₱6,512million and ₱8,616 million, respectively.

### *Operating expenses*

Operating expenses represent the cost of administering the business of the Group. These are recognized when the related services and costs have been incurred.

### *Miscellaneous expenses*

Miscellaneous expenses include dues and subscriptions, donations and other expenditures.

---

## 23. Retirement Plan

The Group has noncontributory defined benefit pension plan covering substantially all of its regular employees. The benefits are based on current salaries and years of service and related compensation on the last year of employment. The retirement is the only long-term employee benefit.

The principal actuarial assumptions used to determine the pension benefits with respect to the discount rate, salary increases and return on plan assets were based on historical and projected normal rates.

The Group immediately recognized to OCI any actuarial gains and losses.

Each year, an Asset-Liability Matching Study (ALM) is performed with the result being analyzed in terms of risk-and-return profiles with mandate of managemnet. Union Bank's (UB) current strategic investment strategy consists of 9.36% of cash, 4.09% of investments in government securities, 85.73% of investment in private companies and 0.81% receivables. For the Group other than UB, the principal

technique of the Group's ALM is to ensure the expected return on assets to be sufficient to support the desired level of funding arising from the defined benefit plans

## 24. Income Tax

Provision for income tax consists of:

Current:	
RCIT/MCIT	₱104
Final	8
Deferred	591
	<u>₱ 703</u>

Deferred tax assets are recognized only to the extent that taxable income will be available against which the deferred tax assets can be used. The subsidiaries will recognize a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable income will allow the deferred tax asset to be recovered.

### Board of Investments (BOI) Incentives

The BOI issued in favor of certain subsidiaries in the Group a Certificate of Registration as Developer of Mass Housing Projects for its 14 projects in 2019, 14 projects in 2018 and 43 projects in 2017, in accordance with the Omnibus Investment Code of 1987. Pursuant thereto, the projects have been granted an Income Tax Holiday for a period of either three years for new projects, or four years for expansion projects, commencing from the date of issuance of the Certificate of Registration.

## 26. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party in making financial and operating decisions or the parties are subject to common control or common significant influence. Entities under common control are those entities outside the Group but are related parties of Fine Properties, Inc. Related parties may be individuals or corporate entities.

All publicly-listed and certain member companies of the Group have Material Related Party Transactions Policies containing the approval requirements and limits on amounts and extent of related party transactions in compliance with the requirement under Revised SRC Rule 68 and SEC Memorandum Circular 10, series 2019.

The Parent Company has an approval requirement such that material related party transaction (RPT) shall be reviewed by the Risk Management Committee (the Committee) and endorsed to the BOD for approval. Material RPTs are those transactions that meet the threshold value as approved by the Committee amounting to 10% or higher of the Group's total consolidated assets based on its latest audited financial statements. The Group in their regular conduct of business has entered into transactions with related parties principally consisting of trade transactions from mall leasing, advances, reimbursement of expenses and purchase and sale of real estate properties. Except as otherwise indicated, the outstanding accounts with related parties shall be settled in cash. The transactions are made at terms and prices agreed upon by the parties.

## 27. Fair Value Determination

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: Valuation techniques involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: Other valuation techniques involving inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value:

*Cash and cash equivalents short-term cash investments, accrued interest receivable, receivables from tenants, buyers and others, receivables from related parties and accounts and other payables except for deferred output VAT and other statutory payables:* Due to the short-term nature of the accounts, the fair value approximate the carrying amounts in the consolidated statements of financial position.

*Investments at FVOCI:* Fair values of equity securities are based on quoted market prices.

*Investments at amortized cost:* The fair value of these listed bonds is determined by reference to quoted market bid prices, at the close of business on the reporting date.

*Installment contracts receivable:* The fair value of installment contracts receivable due within one year approximates its carrying amount. Noncurrent portion of installment contracts receivable are discounted using the applicable discount rates for similar types of instruments. The discount rates used range from 5.03% to 19.00% and 4.63% to 19.00% as of June 30, 2020 and December 31, 2019, respectively.

*Bank loans, loans payable, notes payable and retention payable:*

Estimated fair values are based on the discounted value of future cash flows using the applicable rates for similar types of loans. Interest rates used in discounting cash flows ranged from 4.25% to 10.28% in 2020 and 4.28% to 10.75% in 2019 using the remaining terms to maturity.

## 28. Financial Asset and Liabilities

### Financial Risk Management Objectives and Policies

#### *Financial risk*

The Group's principal financial liabilities comprise of bank loans, loans payable, notes payable, accounts and other payables (except for deferred output VAT and other statutory payables) and liabilities for purchased land. The main purpose of the Group's financial liabilities is to raise financing for the Group's operations. The Group has various financial assets such as installment contracts receivables, cash and cash equivalents and short-term, long-term cash investments, investments at fair value through other comprehensive income and investments at amortized cost which arise directly from its operations. The main risks arising from the use of financial instruments are interest rate risk, foreign currency risk, credit risk, equity price risk and liquidity risk.

The BOD reviews and approves with policies for managing each of these risks. The Group monitors market price risk arising from all financial instruments and regularly report financial management activities and the results of these activities to the BOD.

The Group's risk management policies are summarized below. The exposure to risk and how they arise, as well as the Group's objectives, policies and processes for managing the risk and the methods used to measure the risk did not change from prior years.

#### *Cash flow interest rate risk*

The Group's exposure to market risk for changes in interest rates, relates primarily to its financial assets and liabilities that are interest-bearing.

The Group's policy is to manage its interest cost by entering into fixed rate debts. The Group also regularly enters into short-term loans with its installment contracts receivables as collateral to cushion the impact of potential increase in loan interest rates.

The table below shows the financial assets and liabilities that are interest-bearing:

	June 30, 2020		December 31, 2019	
	Effective Interest Rate	Amount	Effective Interest Rate	Amount
Financial assets				
<i>Fixed rate</i>				
Cash and cash equivalents (excluding cash on hand)	0.10% to 2.50%	₱ 7,372	0.25% to 3.88%	₱ 13,928
Short-term cash investments	2.50% to 3.00%	251	3.00% to 3.25%	211
Investment at amortized cost	1.14% to 8.25%	32,478	2.23% to 10.18%	33,792
Installment contracts receivable	5.93% to 19.00%	43,651	4.63% to 19.00%	38,835
		<b>₱ 83,752</b>		<b>₱ 86,766</b>
Financial liabilities				
<i>Fixed rate</i>				
Notes payable	5.89% to 8.49%	₱ 92,173	5.89% to 8.86%	₱ 93,190
Bank loans	4.25% to 10.75%	45,601	4.28% to 10.75%	47,175
Loans payable	5.08% to 6.24%	3,150	5.08% to 6.24%	3,405
Lease liabilities	7.51% to 10.66%	3,214	7.51% to 10.66%	3,114
		<b>₱ 144,138</b>		<b>₱ 146,884</b>

As of June 30, 2020 and December 31, 2019, the Group's income and operating cash flows are substantially independent of changes in market interest rates.

#### *Foreign exchange risk*

The Group's foreign exchange risk is limited to certain USD denominated cash and cash equivalents, resulting primarily from movements of the Philippine Peso against the United States Dollar (USD). Below is the carrying amount of USD-denominated cash and cash and sensitivity analysis on exchange rate for effect on income before income tax.

Below are the carrying values and the amounts in US\$ of these foreign currency denominated financial assets and liabilities.

	June 30, 2020		December 31, 2019	
	Peso	US\$	Peso	US\$
Cash and cash equivalents	₱1,857	US\$ 37	₱ 557	US\$ 11
Investment at amortized cost	32,478	652	33,777	667
Notes payable	(35,243)	(707)	(35,701)	(705)

In translating the foreign currency- denominated monetary assets in peso amounts, the Philippine Peso - US dollar exchange rates as of June 30, 2020 and December 31, 2019 used were ₱49.83 to US\$1.00 and ₱50.64 to US\$1.00, respectively.

The following table demonstrates the sensitivity to a reasonably possible change in the US dollar exchange rate, with all other variables held constant, of the Group's profit before tax (due to changes in the fair value of monetary assets and liabilities) as of June 30, 2020:

	June 30, 2020 (Unaudited)	
	Increase/Decrease in US Dollar rate	Effect on income before tax
Cash and cash equivalents	+1	₱37
	-1	(37)
Investments at amortized cost	+1	652
	-1	(652)
Notes payable	-1	(707)
	+1	707

The assumed movement in basis points for foreign exchange sensitivity analysis is based on the currently observable market environment, showing no material movements as in prior years.

There are no items affecting equity except for those having impact on profit or loss.

#### *Credit risk*

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily installment contracts receivables and receivables from tenants) and from its investing activities, including deposits with banks and financial institutions.

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. Receivables and contract assets are regularly monitored.

For installment contracts receivable, exposure to credit risk is not significant given that title of the real estate property is only transferred to the customer if the consideration had been fully paid. In case of default, after enforcement activities, the Group has the right to cancel the sale and enter into another contract to sell to another customer after certain proceedings (e.g. grace period, referral to legal, cancellation process, reimbursement of previous payments) had been completed.

The Group evaluates the concentration of risk with respect to non-related party trade receivables as low, as its customers are located in several jurisdictions and various income brackets, and operate in largely independent markets.

Credit risk arising from receivable from tenants - third parties is primarily managed through a screening of tenants based on credit history and financial information submitted. Tenants are required to pay security deposits equivalent to 3-months lease payment to cover any defaulting amounts and advance rentals also equivalent to 3-month rent.

Credit risk arising from receivable from tenants - related parties, aside from the same terms of security deposit and advance rental, is minimal due to the guarantee provided by Fine Properties, Inc., ultimate parent company.

Credit risk arising from receivables from related parties is minimal as they have a low risk of default and have a strong capacity to meet their contractual cash flows in the near term.

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Group's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Group's Finance Committee. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through a counterparty's potential failure to make payments.

The Group's maximum exposure to credit risk as of June 30, 2020 and December 31, 2019 is equal to the carrying values of its financial assets.

Applying the expected credit risk model did not result in the recognition of an impairment loss for all financial assets at amortized cost in 2020.

#### *Liquidity Risk*

The Group monitors its cash flow position, debt maturity profile and overall liquidity position in assessing its exposure to liquidity risk. The Group maintains a level of cash deemed sufficient to finance its cash requirements. Operating expenses and working capital requirements are sufficiently funded through cash collections. The Group's loan maturity profile is regularly reviewed to ensure availability of funding through adequate credit facilities with banks and other financial institutions.

The extent and nature of exposures to liquidity risk and how they arise as well as the Group's objectives, policies and processes for managing the risk and the methods used to measure the risk are the same for 2020 and 2019.

---

## **29. Commitments and Contingencies**

The Group has entered into several contracts with contractors for the development of its real estate properties. These contracts are due to be completed on various dates up to December 2020.

The progress billings are settled within one year from date of billings. These are unsecured obligations and carried at cost.

The Group has various contingent liabilities from legal cases arising from the ordinary course of business which are either pending decision by the courts or are currently being contested by the Group, the outcome of which are not presently determinable.

In the opinion of the management and its legal counsel, the eventual liability under these lawsuits or claims, if any, will not have a material or adverse effect in the Group's financial position and results of operations.

### 30. Impact of COVID-19 Pandemic and Events After Reporting Period

#### **Impact of COVID-19 Pandemic**

On March 16, 2020, Presidential Proclamation No. 929 was issued declaring a State of Calamity throughout the Philippines for a period of six (6) months and imposed an enhanced community quarantine (ECQ) throughout the island of Luzon. ECQ was likewise imposed in provinces outside the island of Luzon as imposed by their respective local government units. When the quarantine was imposed, our offices and showrooms were closed so work-from-home arrangements for employees were adopted. Since physical gatherings were no longer possible, marketing efforts shifted to digital platforms to resume promotional campaigns.

Construction activities for houses, condominium buildings and new commercial spaces were also suspended during the quarantine period. However, delays in completion will be tempered by the shorter duration of construction period for houses (average of 4 months). Our strong presence outside Metro Manila is a factor that lessens the impact of the lockdown, as most areas especially in the provinces have already transitioned to Modified General Community Quarantine (MGCQ) and we can ramp up construction in those areas.

The Group is continuously evaluating potential impact of the pandemic to the company's financial assets including our assumptions in the calculation of the Expected Credit Loss and impairment testing for goodwill and other non-financial assets.

To date, the Company has not made any modification in its existing debt and have not availed of any extension in debt servicing.

The Group is closely monitoring the situation and the changes in our target market's behaviour as a result of the "new normal". Management will revisit the planned capital expenditures, project launches and our leasing expansion program for the year.

#### **Residential Property**

As discussed above, the pandemic situation has tempered home buyer's appetite. As a result, housing reservation sales dipped by around 37% in 1st half of 2020 compared to the same period in the prior year which will impact sales to be booked subsequent to 1st half of 2020.

We expect to see improvement as restrictions are gradually lifted, with most cities and provinces already in MGCQ. Additionally, majority of our buyers are end users, families who buy homes for their own use; compared to investors, end users value the house more, so their demand is more stable and their ability to meet payments more resilient. The diversity of our product portfolio, which caters to a wide range of income segments, likewise helps ensures sales in any economic condition. We have seen improvement in the level of reservation sales starting May with our June reservation sales now at 70% of pre-COVID levels as we increased our sales activity online.

Overseas Filipino Workers (OFW) historically account for approximately 50-60% of our residential sales. Slower global economic growth and the decrease in the number of Filipinos deployed overseas for seafarers during the period has led to lower OFW remittances in March, with a view of a projected decline in total remittance up to 5% for the full year. Nonetheless, we expect remittances to continue given strong demand for Filipino nurses and frontline healthcare workers abroad as well as ongoing investments in the Philippines, including housing and education. We plan to just shift our marketing initiatives for OFWs towards those with jobs that are in demand at this time. There are 10 million

OFWs, and even if a number will be repatriated, we are still behind in addressing the demand for this market.

### Commercial Property

As of June 30, 2020 we have a total of 1,497, 229 square meters of Gross Floor Area of Investment properties which consists of 31 malls, 7 office buildings and 62 commercial centers. Most of our malls were closed with the implementation of ECQ. Only tenants providing essential services and basic necessities, including restaurants with food delivery capability, remained open. In areas that have already moderated the extent of their quarantine, malls reopened non-leisure shops at 50% capacity, in addition to essential stores. Most of our office buildings on the other hand remained operational during the period.

Our malls are typically around 30,000 square meters in GFA and a significant portion is occupied by essential retail formats, such as AllDay, drug stores, and food establishments. We do not have a significant space for department stores, which will be a drag for most of the other malls.

We have seen decline in our rental revenues in the 2nd quarter compared to our 1st quarter for the year as our malls were closed except for the essential stores, from March 17, 2020 to May 15, 2020 and we only started to open malls in some areas around May 16, 2020. Another factor that may impact our rental revenue are the government mandated rental payments deferral and additional rental concessions that we are negotiating with our tenants. We are currently working with our tenants on the rental concessions to be provided to them. Generally, we are not giving a uniform rental concession to all our tenants. We extend concessions depending on the tenant's profile and credit.

### Events after reporting period

On July 20, 2020, the Company's wholly-owned subsidiary, VLL International, Inc. (the Issuer) issued US\$200.00 million notes ("Notes") with a term of seven years from initial draw down date. The interest rate is 7.25% per annum payable semi-annually in arrears on January 20 and July 20 of each year. The proceeds will be used to refinance existing indebtedness, purchase, develop, construct or improve assets, property and equipment, and for general corporate purposes.

#### *Redemption at the option of the issuer*

At any time, the Issuer may on any one or more occasions redeem all or a part of the Notes on any business day or after July 20, 2024 and up to but excluding the Maturity date, the Issuer may on one or more occasions redeem all or part of the Notes, at the redemption price (expressed in percentages of principal amount on the date of redemption), plus accrued and unpaid interest, if any, to (but not including) the date of redemption, if redeemed during the 12-month period commencing on July 20 of the years set forth below:

## MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### *Results of operations covering 6-months of 2020 vs. 6-months of 2019*

#### Revenues

##### *Real Estate*

The Company recorded revenue from real estate sales of ₱12,773 million for the six months ended 30 June 2020, a decrease of 29% from ₱18,026 million for the six months ended 30 June 2019. This was primarily attributable to the decrease in the overall completion rate of sold inventories of all its business units as a result of the enhanced community quarantine (“ECQ”) implemented on March 16, 2020 that prohibited construction activities:

- Real estate revenue from Vista Residences decreased by 1% to ₱1,251 million for the six months ended 30 June 2020 from ₱1,265 million for the six months ended 30 June 2019. This decrease was principally attributable to the decrease in the number of sold condominium units completed or under construction during the period. Vista Residences is the business unit of Vista Land that develops and sells vertical projects across the Philippines.
- Real estate revenue of Communities Philippines decreased by 21% to ₱6,899 million for six months ended 30 June 2020 from ₱8,734 million for the six months ended 30 June 2019. This decrease was principally attributable to the decrease in the number of sold homes completed or under construction outside the Mega Manila area in the affordable housing segment during the year.
- Real estate revenue of Camella decreased by 39% to ₱4,404 million for the six months ended 30 June 2020 from ₱7,235 million for the six months ended 30 June 2019. This decrease was principally attributable to the decrease in the number of sold homes completed or under construction in the Mega Manila area in the affordable housing segment during the period.
- Real estate revenue of Crown Asia decrease by 66% to ₱196 million for the six months ended 30 June 2020 from ₱582 million for the six months ended 30 June 2019. This decrease was principally attributable to the decrease in the number of sold homes completed or under construction in the Mega Manila area in the middle-income housing segment during the year.
- Real estate revenue of Brittany decreased by 89% to ₱23 million for the six months ended 30 June 2020 from ₱210 million in the same period last year. This decrease was principally attributable to the decrease in the number of sold homes completed or under construction in the Mega Manila area in the high-end housing segment.

##### *Rental income*

Rental income decreased by 5% from ₱3,611 million for the six months ended 30 June 2019 to ₱3,433 million for the six months ended 30 June 2020. The decrease was primarily attributable the mall closures during the lockdown starting March 16, 2020.

##### *Interest income from installment contract receivable and investments*

Interest income from installment contract receivable and investments increased by 3% from ₱978 million for the six months ended 30 June 2019 to ₱1,005 for the six months ended 30 June 2020. The increase was primarily attributable to the increase in interest income from installment contracts receivable.

##### *Parking, hotel, mall administrative and processing fees and others*

Income from parking, hotel, mall administrative and processing fees and others increased by 41% from ₱780 million for the six months ended 30 June 2019 to ₱1,103 million for six months ended 30 June 2020. The increase was primarily attributable to the 59% increase from mall administrative and processing fee as

well as parking fees from our investment properties to ₱739 million for the six months ended 30 June 2020 from ₱464 million for the six months ended June 30, 2019.

### **Costs and Expenses**

Cost and expenses decreased by 20% to ₱11,332 million for the six months ended 30 June 2020 from ₱14,151 million for the six months ended 30 June 2019.

- Cost of real estate sales decreased by 24% from ₱8,616 million for the six months ended 30 June 2019 to ₱6,512 million for the six months ended 30 June 2020 primarily due to the decrease in the overall recorded sales of Vista Land's business units.
- Operating expenses decreased by 13% from ₱5,535 million for the six months ended 30 June 2019 to ₱4,820 million for the six months ended 30 June 2020 with decreases of the following:
  - a decrease in advertising and promotions from ₱772 million for the six months ended 30 June 2019 to ₱389 million for the six months ended 30 June 2020 resulting from subsequent decrease in marketing expenses due to the pandemic.
  - a decrease in commission from ₱805 million for the six months ended 30 June 2019 to ₱416 million for the six months ended 30 June 2020 resulting from the decrease in real estate sales this period and the shift to digital marketing.
  - a decrease in occupancy cost from ₱556 million for the six months ended 30 June 2019 to ₱404 million in the six months ended 30 June 2020 due to the decrease in utilities expenses due to the implementation of telecommuting as a result of the implementation of the enhance community quarantine in relation to the COVID-19 pandemic.

### **Interest and other financing charges**

Interest and other financing charges increased by 2% from ₱2,685 million for the six months ended 30 June 2019 to ₱2,733 million for the six months ended 30 June 2020. The increase was primarily attributable higher level of debt for the six months ended 30 June 2020 compared to the same period last year.

### **Unrealized foreign exchange losses**

Unrealized foreign exchange losses increased by 142% from ₱4 million for the six months ended 30 June 2019 to ₱10 million for the six months ended 30 June 2020 due to translation adjustments.

### **Provision for Income Tax**

Provision for income tax decreased by 4% from ₱733 million for the six months ended 30 June 2019 to ₱730 million for the six months ended 30 June 2020 primarily due to a slightly lower taxable base for the period.

### **Net Income**

As a result of the foregoing, the Company's net income decreased by 39% to ₱3,536 million for the six months ended 30 June 2020 from ₱5,822 million for the six months ended 30 June 2019.

In a move to contain the COVID-19 outbreak, on March 13, 2020, the Office of the President of the Philippines issued a Memorandum directive to impose stringent social distancing measures in the National Capital Region effective March 15, 2020. On March 16, 2020, Presidential Proclamation No. 929 was issued, declaring a State of Calamity throughout the Philippines for a period of six (6) months and imposed an enhanced community quarantine throughout the island of Luzon until April 12, 2020, which was subsequently extended to April 30, 2020. Enhanced community quarantine was likewise imposed in provinces outside the island of Luzon as imposed by their respective local government unit. These measures have caused disruptions to businesses and economic activities, and its impact on businesses continue to evolve. On May 16, 2020, the Enhanced Community Quarantine was downgraded to

Modified Enhanced Community Quarantine (MECQ) in Metro Manila and to General Community Quarantine in most provinces.

For the 6-months of 2020, except for the COVID-19 impact as discussed above, there were no other seasonal aspects that had a material effect on the financial condition or results of operations of the Company. Neither were there any trends, events or uncertainties that have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations. The Company is not aware of events that will cause a material change in the relationship between the costs and revenues.

There are no significant elements of income or loss that did not arise from the Company's continuing operations.

## FINANCIAL CONDITION
